

# *Brush Up Your Basic Skills*

## ***What?***

DACC recognizes that some people need to refresh their memory or improve their skills before they can progress at work or in school. Basic skills courses, both on campus and online, were developed to help expand those skills in the areas of:

- **Mathematics**
- **English Grammar & Writing**
- **Study Skills, Reading Strategies, & Vocabulary Development**

These courses are in modules so students can “shop” for the ones that will best suit their needs. Students may choose from 1-4 non-degree credit hour classes in each skill area. Courses are open entry in order to provide instruction when the student needs it.

## ***Who?***

- Someone whose academic skills need strengthening
- Someone who discovers “holes” in his/her knowledge base
- Someone who needs review prior to important assessment tests
- Someone looking for a job promotion
- Someone returning to school

## ***How?***

For more information, please contact:

Marie Vanada, Lead Instructor, Developmental Education  
217.443.8732 or 888.455.3222 ext. 732, [mvanada@dacc.edu](mailto:mvanada@dacc.edu)
