

Wind Turbine Technician AAS

Career Program at Danville Area Community College
Financial Aid eligible program

This program prepares individuals to work in the emerging wind power energy industry. Students will complete an industry-derived curriculum as they learn about the electrical power generation industry, safety at the worksite, mechanical devices, as well as hydraulic and electrical systems. Graduates enter the workforce with the skills necessary to be employed and succeed in entry-level technical positions and with additional training and experience may advance to supervisory or advanced technical positions.

Program Specific Courses Include:

- Introduction to Wind Energy
- Wind Power Delivery Systems
- Wind Turbine Materials and Electro Mechanical Equipment
- Wind Turbine Troubleshooting

Admission Criteria:

The Wind Energy Industry is very competitive and student excellence is a priority. Therefore students interested in the Wind Program are chosen according to the following:

1. GPA
2. Personal Statement
3. Experience
4. Service to Others
5. Recommendation Letters
6. Veterans
7. Prior Course Completions
8. Physical and Drug Screen

Job/Employment Information:

Wind Energy is an emerging field. Based on the number of planned and announced projects in Illinois and across the nation, the need for this specialty is growing rapidly.

Expected Salary Range: The base pay for a Wind Energy Technician is estimated to be \$16-\$30 per hour, with an average work week of 40-45 hours. For the most current salary information visit www.ilworkinfo.com.
