**Danville Area Community College**

HEALTHCARE COLLEGE EXPRESS

Want to get a jump on a great career in healthcare?

Health Information Technology (HIT) Professionals

- work with patient data and information
- work with cutting edge health information systems
- have options to work either on-site or remotely
- work throughout every aspect of the healthcare industry
- multiple job opportunities and amazing career growth potential

This program is for <u>high school students</u> interested in a healthcare profession.

Healthcare Law and Ethics, Pathophysiology and Pharmacology, and Medical Coding Courses are taught in this program.

Each of these courses provide valuable knowledge for pursuing any health-related profession and specifically align with a degree and career in the HIT field.

Healthcare College Express

This program is designed for students interested in a healthcare profession. The Healthcare College Express courses are offered during afternoon College Express. Students will learn Healthcare Law, Medical Ethics, Pathophysiology and Pharmacology*, Medical Record Documentation Requirements, Medical Coding, and Healthcare Regulations that govern all healthcare settings (hospital, nursing home, home health, veterinarian medicine etc.). The program is designed to offer a wide variety of learning experiences, including classroom lectures, hands on coding and health information management for both hospital and ambulatory healthcare settings. Healthcare professionals in the field use electronic health records to document notes, enter diagnoses and procedure codes, and must abide by healthcare law and regulations. Each of these courses provide valuable knowledge for pursuing any health related profession.

REQUIRED COURSES		HOURS
Fall Semester Courses		
PHMB 100 ICD-10-CM Diagnosis Coding	Fall Junior Year	4
HITT 205 Healthcare Law and Ethics	Fall Senior Year	2
Spring Semester Courses
