Manufacturing Great Careers in the Danville Area

For the Students of Danville Area Community College and for Vermilion County Residents
Greetings from the DACC President:

People who say that there aren’t any jobs in or around Danville don’t know what they’re talking about.

The manufacturing, transportation, and logistics industries are alive and thriving in the Danville area. They’re the hidden jewels of our community and the key to the economic vitality of our region.

Every day, Danville area industry is offering dozens of jobs that can be a gateway for Danville Area Community College students, graduates, and local residents to rewarding careers.

Some of the area’s top manufacturing and logistics companies are opening their doors to offer great workplaces and myriad opportunities for career advancement and a better life. This booklet provides a description of these Danville area companies as well as information about how to get started in entry-level positions—for high-school graduates, DACC graduates, and anyone looking to work hard to achieve a better life.

These aren’t your grandfather’s manufacturing companies. They feature state-of-the-art facilities that produce an amazing array of machines, materials and merchandise. Many of the companies connect to a global customer supply chain through sophisticated transportation-logistics-and distribution networks. In other words, these are really cool and amazingly successful companies to work for.

Best of all, having prior experience isn’t required for most of these great jobs. The companies take a vested interest in your success. They care about your development and advancement in their organizations. They are pleased to train you in the required job skills that are unique to their businesses.

What they expect from you is that you make a serious professional commitment to the company and that you possess what some call “successful life skills” and others may call “common sense.” DACC’s Career Services, the American Job Center staff, and Vermilion County Works would be pleased to work with you to help ensure you present your “best self” throughout the application and-interview process as well as once you’re on the job.

As you’ll see in this booklet, a college degree can help you advance in your career. To that end, most of these companies will work with you to accommodate your class schedules and help you earn your associate degree and even a bachelor’s degree as you continue to study at DACC and work in Danville.

Here’s a tip: Those of you majoring in engineering, mathematics, science, technology, or computer science will have an inside track to a high-paying job and a great career. Then again, you would also be in high demand by learning how to work as a welder or machinist or computer programmer.

As you’ll see in this book, you have a lot of options ahead of you. At DACC, we’re committed to helping you find your way to whichever way you choose to go.

Thank you for your interest in launching a great career!

Sincerely,

Dr. Stephen Nacco
President
Danville Area Community College

Illini Casting

Company Address:
1940 E. Fairchild Street, Danville, IL 61832

Company Description:
Illini Castings, an Affiliate of Mervis Industries-is an expert in refurbishing railroad castings, with over 75 years of experience. We recondition material and certify that refurbished parts meet stringent quality assurance requirements. Most of our refurbished railroad parts come from retired railcars or privately-owned railcars. The reconditioning process takes place in work booths by a trained and certified welder using approved welding procedures and gages to guarantee uniformity of all manufactured products. By using a state-of-the-art BeaverMatic Furnace, Illini Castings provides a unique heat treating facility for couplers and yokes that is not readily available elsewhere. The heat treatment process also includes a Quench Tank that cools the couplers for the tempering process that brings the coupler to an “E Grade” of hardness required by the American Association of Railroads. The products are then inspected using all appropriate gages to verify they meet AAR standards. After completing this process, the material is banded for packaged for shipment.

- Mervis Recycling is a full-service provider for iron, metal, plastic, fiber and all other recyclable products. Mervis Plastics provides custom grinding, colorizing, and pelletizing.

Plant Specialties:
Access to hard-to-find parts (especially side frames and bolsters). Cost savings for utilizing refurbished parts. Assurance that products are of the highest quality. Finished products include: Couplers, Yokes, Side frames and bolsters, Small parts for couplers and Air brake parts.

Certifications Include:
American Association of Railroads M-212 for couplers
American Association of Railroads M-214 for side frames and bolsters
Railroad’s Quality Assurance M-1003

Positions Regularly Available:
Welders, Quality Inspectors, Quality Control, Supervisors

Entry-Level Credentials:
Minimum: High-school diploma or GED with experience in welding and/or fabrication
Preferred: Associate Degree in Welding or in an Engineering discipline or Trade Certification.

Entry-Level Salary Range (Annually):
$34,000-60,000

Mervis Industries, Inc.

Company Address:
3295 E. Main Street, PO Box 827, Danville, IL 61834-0827

Company Description:
At Mervis, we are focused on creating progressive solutions to the recycling needs of our customers and communities. Our near century long family management has built a reputation of financial stability, integrity and customer loyalty that few other recycling centers can match. We are proud to be one of the most respected and experienced recyclers in the industry and the largest recycler throughout Central Illinois and Indiana. As our company expands and evolves, Mervis creates innovative ways to add services, increase recycling, increase value for our customers and to put new life into unused land and abandoned facilities. With nearly 275 dedicated employees, Mervis Industries currently serves clients throughout North America and the Pacific Rim. Mervis is full-service provider for iron, metal, plastic, fiber, and all other recyclable products.

Mervis Industries services extend well beyond our public and industrial recycling centers: Mervis Plastics provides custom grinding, colorizing, and pelletizing. Illini Castings produces high quality remanufactured railroad parts in our state-of-the-art and environmentally sensitive facility.

Plant Specialties:
Mervis Industries, Inc. provides personal and industrial recycling services. It recycles various materials, such as appliances, vehicles, aluminum cans, aluminum sidings, tubing, and copper and aluminum wires; and offers iron, metal, plastic, fiber, and other recyclable products. The company also provides vehicle recycling and pick up services; scrap management programs for our industrial customers; and recycling management services, which include transportation, recycling, brokerage, scrap management, customized processing, tolling, railcar dismantling, plant dismantling, and custom plastic grinding services, as well as scrap, waste, and recycling audits.

Positions Regularly Available:
Tractor-trailer Mechanics, CDL Drivers, Welders, Crane Operators.

Entry-Level Credentials:
Minimum: High-school diploma or GED with experience in machine operations, fabrication and/or welding Preferred: Associate Degree in Engineering or Computer Science; Bachelor’s Degree in Business/Technical or Operation and Supply Chain Management.

The American Job Center

Danville Area Community College is proud to be the One Stop Operator for the Vermilion County American Job Center.

Located near downtown Danville at 407 N Franklin St., the American Job Center is home to all of the services offered through our Vermilion County workforce development partners.

The Center provides free assistance for job seekers as well as County residents hoping to find a better job and rewarding career.

Stop in to meet with a career manager and learn about employment opportunities, funding for college or training programs, or other support services.

The AJC is open Monday through Friday, 8:30 a.m.-5:00 p.m. It is closed on major holidays.

For further information please call Vermilion County Works at the AJC, 217/442-0296, ext. 101.
Danville Area Community College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. Inquiries may be directed to Jill A. Cranmore, Vice President of Human Resources, Affirmative Action Officer, Title IX Coordinator, and Section 504/ADA Coordinator, Danville Area Community College, 2000 E. Main St., Martin Luther King Memorial Way, Danville, IL 61832-5199, 217-443-8756, or jcranmore@dacc.edu.
Bachelor’s Degrees @ DACC

Having an associate degree will usually get you hired. Having a bachelor’s degree can help get you promoted.

You can now earn a bachelor’s degree affordably and without leaving Danville… thanks to DACC’s 3 + 1 partnership with Franklin University.

After completing an associate degree at DACC, you can continue toward a bachelor’s degree by taking additional courses to total 94 credits at DACC. That’s three years of community college courses at community college prices.

The fourth-year classes are all online through Franklin University. If you’d prefer to take the classes on DACC computers rather than your own computer, DACC has a “Bachelor’s Lounge” with staff available to help you complete your program. Currently, Franklin offers bachelor’s degrees at DACC in 30 different programs:

Accounting
Allied Healthcare Management
Applied Management
Applied Psychology
Business Administration
Business Economics
Business Forensics
Criminal Justice Administration
Communications
Energy Management
Emergency Management & Homeland Security
Entrepreneurship
Financial Management
