Pep Band

T & TH, February 16-March 4 from 4:00-5:15pm

Do you play an instrument in school? Join the DACC Pep Band and practice the skills you've acquired. Learn basic pep band songs such as: GO DACC GO, Eye of the Tiger, Get Ready for This and more. Practice the songs under the director of DACC Pep Band Director Steve Meadows and Guido Esteves. Focus will be on reading music, listening skills, working together as a band.

Ages 10-18

DJ Mix-a-Lot

M-TH, February 22-25 from 4:00-6:00pm

Get your hands on a DJ mixer and learn how the professionals mix music. You'll also get a chance to record and mix audio sound files in the DACC Audio Control room. After camp is complete you'll move onto becoming a real DJ where you will have a chance to spin tunes during a DACC basketball game. Focus will be on creativity, focus, social interaction and listening skills.

Ages 12-18

Legos Robotics

M-TH, February 22-25 from 4:00-6:00pm

Get ready to build a powerful, super strong Lego robot ready to take on....your campmates. Your mission is to design, build, then program a robot that will dominate Bot-Wars, your friendly end of the week competition to see who has the best engineering skills to make their robot the Bot-Wars Champions. Focus will be on creativity, problem solving, logic, strategy, social interaction.

Ages: 8-12

Mini-Jaguar eSports

M-TH, March 1-4 from 4:00-6:00

Welcome to the world of competitive eSports. Did you know that DACC e-athletes compete remotely with other colleges around the country? It's the perfect socially-distanced competitive activity. DACC eSports has grown into a nationally recognized program as DACC is set to host the 1st Annual NJCAA NBA2K National Competition in April. Come check out the DACC eSports Lab while learning about eSports and compete against others. Focus will be on working as a team and social interaction.

Ages: 10-14

Broadcast Production

T-TH, March 1-4 from 4:00-6:00pm

Lights, camera, action - literally. Just like you've seen on YouTube. Produce a show starting with the scripts, reading from the teleprompter, directing the production, working the switch, audio control and graphics. Then take all your footage into post-production to create a program. Learn about every aspect in producing a show. Focus will be on creativity, listening skills and social interaction.

Ages: 10-16

Guitar for Beginners

T & TH, March 9-25 from 4:00-5:15pm

Learn the basic techniques - chords, rhythm, note reading, finger picking, scales, and music fundamentals - that will put a solid foundation under new players and be applicable to all styles of guitar music. Students will learn in a relaxed and fun environment. Must bring an acoustic or electric guitar with an amp. Focus will be on listening skills and social interaction.

Ages 10-16

Minecraft

M-TH, March 15-18 from 4:00-6:00pm

This camp challenges kids to imagine and create a comprehensive world in Minecraft. Campers will work together to plan a world around a theme, brainstorm what it should contain, then build the structures and environments of that world. Focus will be on collaboration, team building, creativity and problem solving. The level of knowledge of Minecraft is very flexible.

Ages: 8-14

Video Editing

M-TH, March 15-18 from 4:00-6:00pm

Anyone can shoot good video on their phones, but how about taking it to the next level and editing that video? During this week of College Camp you'll learn the basics of video editing. Lay your footage out in a timeline, add music overlays and graphics. You'll also be able to shoot video using green screen and put yourself on a sandy beach somewhere or perhaps on the streets of New York City. Have fun creating in the college's new Creative Studio. Focus will be on creativity, social interaction, listening skills.

Ages 10-14

Studio 101

M-TH March 15-18 from 4p-6p

Studio 101 is designed for the creative, and not so creative. Enjoy a week of masterpiece making in the DACC Art Lab. Each day will bring a new and different use of a medium. You will be taking home several projects that you create throughout the week. Come enjoy, bring your creative juices and have fun.

Ages 13-17

\$150/person

To register contact bwood-worth@dacc.edu or 217.443.8779

EMERGENCY MEDICAL RESPONDER (EMR)

Emergency Medical Responder's provide immediate lifesaving care to critical patients who access the emergency medical services system. EMRs have the knowledge and skills necessary to provide immediate lifesaving interventions while awaiting additional EMS resources to arrive. EMRs also provide assistance to higher-level personnel at the scene of emergencies and during transport. Emergency Medical Responders are a vital part of the comprehensive EMS response.

Under medical oversight, Emergency Medical Responders perform basic Interventions with minimal equipment.

For more information contact Corporate @ 217-443-8777 or email cce@dacc.edu

Fee of \$300 is due at the time of registration.

AMERICAN HEART ASSOCIATION CPR & AED Classes

Heartsaver courses are designed for anyone with little or no medical training who needs a course completion card for job, regulatory (for example, OSHA), or other requirements. These courses can also be taken by anyone who wants to be prepared for an emergency in any setting. For many Heartsaver courses, students receive a course completion card that is valid for 2 years.

- **Heartsaver® First Aid CPR AED** is a video-based, instructor-led course that teaches students critical skills needed to respond to and manage an emergency until emergency medical services arrive. Skills covered in this course include first aid; choking relief in adults, children, and infants; and what to do for sudden cardiac arrest in adults, children, and infants. This course teaches skills with the AHA's research-proven practice-while-watching technique, which allows instructors to observe the students, provide feedback, and guide the students' learning of skills.
- **Basic Life Support** training reinforces healthcare professionals' understanding of the importance of early CPR and defibrillation, basic steps of performing CPR, relieving choking, and using an AED; and the role of each link in the Chain of Survival.
- **Advanced Cardiovascular Life Support** Providers enhance their skills in treating adult victims of cardiac arrest or other cardiopulmonary emergencies, while earning their American Heart Association ACLS (AHA ACLS) for Healthcare Providers Course Completion Card.
- **BLS and Heartsaver Instructor Courses** will certify you to teach American Heart Association (AHA) courses. Contact the training center number below for more information.

For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu

Courses offered monthly (both classroom and eLearning)

EMERGENCY MEDICAL TECHNICIAN (EMT) Basic

The **EMT-Basic** certification is the first of three levels of certification and training available for emergency medical services personnel. It often is a prerequisite for earning **EMT-Intermediate** and **Paramedic** certifications. Successful completion of this course will meet eligibility requirements to challenge the State licensure or the National Registry certification exams. These exams are done electronically at a certified testing center. Online registration/payment is available. Fee of \$750 is due at the time of registration.

For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu

PHLEBOTOMY TECHNIQUES

This course is a non-Nursing course aimed at the technical skills and knowledge required for blood collection. Students will develop skills in performing phlebotomy procedures in various health care settings. Topics include: proper use of equipment, current safety standards, medical and legal policies and regulations, interpersonal skills, and correct transport and specimen preparation for laboratory testing. Online Registration is available, Key Word **PHLEBOTOMY**. Fee of \$375 is due at the time of registration. For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu.

PHARMACY TECHNICIAN

Pharmacy Technicians must have a broad knowledge of pharmacy practice, and be skilled in the techniques required to order, stock, package, and prepare medications. The one requirement all pharmacy technician duties have in common is a need for absolute accuracy and precision in both the technical and clerical aspects of the job. When working in a pharmacy, pharmacy technicians work under the direction of a licensed pharmacist. Online Registration is available, Key Work **PHARMACY**. Fee of \$220 is due at the time of registration. For more information contact Corporate @ 217-443-8777 or email cce@dacc.edu
