To register contact bwood-worth@dacc.edu or 217.443.8779

EMERGENCY MEDICAL RESPONDER (EMR)
Emergency Medical Responders provide immediate lifesaving care to critical patients who access the emergency medical services system. EMRs have the knowledge and skills necessary to provide immediate lifesaving interventions while awaiting additional EMS resources to arrive. EMRs also provide assistance to higher-level personnel at the scene of emergencies and during transport. Emergency Medical Responders are a vital part of the comprehensive EMS response. Under medical oversight, Emergency Medical Responders perform basic interventions with minimal equipment.

For more information contact Corporate @ 217-443-8777 or email cce@dacc.edu
Fee of $300 is due at the time of registration.
Sept 13—Nov 8
M & TH 1p-5p

AMERICAN HEART ASSOCIATION
CPR & AED Classes
Heartsaver courses are designed for anyone with little or no medical training who needs a course completion card for job, regulatory (for example, OSHA), or other requirements. These courses can also be taken by anyone who wants to be prepared for an emergency in any setting. For many Heartsaver courses, students receive a course completion card that is valid for 2 years.

- Heartsaver® First Aid CPR AED is a video-based, instructor-led course that teaches students critical skills needed to respond to and manage an emergency until emergency medical services arrive. Skills covered in this course include first aid; choking relief in adults, children, and infants; and what to do for sudden cardiac arrest in adults, children, and infants. This course teaches skills with the AHA’s research-proven practice-while-watching technique, which allows instructors to observe the students, provide feedback, and guide the students’ learning of skills.
- Basic Life Support training reinforces healthcare professionals’ understanding of the importance of early CPR and defibrillation, basic steps of performing CPR, relieving choking, and using an AED; and the role of each link in the Chain of Survival.
- Advanced Cardiovascular Life Support Providers enhance their skills in treating adult victims of cardiac arrest or other cardiopulmonary emergencies, while earning their American Heart Association ACLS (AHA ACLS) for Healthcare Providers Course Completion Card.
- BLS and Heartsaver Instructor Courses will certify you to teach American Heart Association (AHA) courses. Contact the training center number below for more information.

For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu
Courses offered monthly (both classroom and eLearning)

EMERGENCY MEDICAL TECHNICIAN (EMT) Basic
The EMT-Basic certification is the first of three levels of certification and training available for emergency medical services personnel. It often is a prerequisite for earning EMT-Intermediate and Paramedic certifications. Successful completion of this course will meet eligibility requirements to challenge the State licensure or the National Registry certification exams. These exams are done electronically at a certified testing center.

Online registration/payment is available. Fee of $750 is due at the time of registration.

For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu.
TH, Aug 26—Dec 20 6p-10p
Bremer Conference Center RM 141/142

PHLEBOTOMY TECHNIQUES
This course is a non-Nursing course aimed at the technical skills and knowledge required for blood collection. Students will develop skills in performing phlebotomy procedures in various health care settings. Topics include: proper use of equipment, current safety standards, medical and legal policies and regulations, interpersonal skills, and correct transport and specimen preparation for laboratory testing.

Online Registration is available, Key Word PHLEBOTOMY. Fee of $450 due at the time of registration.

For more information contact Corporate Education @ 217-443-8777 or email cce@dacc.edu.
T & Th, August 24—Nov 16 3p-5p
Bremer Conference Center RM 136

PHARMACY TECHNICIAN
Pharmacy Technicians must have a broad knowledge of pharmacy practice, and be skilled in the techniques required to order, stock, package, and prepare medications. The one requirement all pharmacy technician duties have in common is a need for absolute accuracy and precision in both the technical and clerical aspects of the job.

When working in a pharmacy, pharmacy technicians work under the direction of a licensed pharmacist. $375 Due upon registration.

TH, Aug 26—Nov 18 4p-6:30p
Bremer Conference Center RM 136
