

RCRA & DOT HAZMAT Refresher Training

RCRA – 8 hours:

The Resource Conservation and Recovery Act (RCRA) requires annual training in accordance with 40 CFR 262.34(a)(4) incorporating 40 CFR 265.16. Hazardous waste workers are required to become familiar with proper hazardous waste management and emergency procedures. Additional regulations require training for universal waste handling procedures. This RCRA Regulatory Review course is designed to provide a pragmatic approach to hazardous waste, universal waste, and used oil management. We discuss the following topics:

- Hazardous Waste Regulatory Program
- Definition of Solid Waste
- Hazardous Waste Determinations
- Generator Classification
- Hazardous Waste Management Standards for Containers and Tanks
- Satellite Accumulation Standards
- Preparedness and Prevention
- Contingency Planning
- Personnel Training
- Recordkeeping
- Land Disposal Restrictions
- Manifesting
- E-Manifesting Updates
- Generator Improvements and Pharma Rules

DOT HazMat – 4 hours:

The DOT training and testing will be in compliance with 49 CFR 172.700 (Subpart H – Training). This training is not required annually, it must be completed/updated once every three years. DOT HazMat training is to be specific to job duties. This training is geared to those who complete and sign hazardous waste manifests to ship waste by highway or rail. Topics to be covered include:

- Definition of a Hazardous Material
- Hazardous Material Training Requirements
- Classifications of Hazardous Materials
- Hazardous Materials Table
- Shipping Papers
- Packaging
- Marking and Labeling
- Placarding
- Emergency Response Information
- Transportation Security

Quizzes and Final Exam:

Quizzes Tests require a score of 70% to proceed pass the course.

RCRA & DOT HAZMAT Initial Training
