## **Nursing**

### Level I Nursing Certificate

The Level I nursing program prepares students to become licensed practical nurses (LPNs) to provide safe, quality care under delegation in hospitals and ambulatory care settings. The program provides a variety of learning experiences, including classroom, laboratory, and clinical experiences. Graduates are eligible to take the licensure exam for Practical Nursing (NCLEX-PN) and obtain state licensure. This program is a highly selective program and acceptance is dependent upon an admission criteria point system. There are no prerequisites for this program, however students are encouraged to complete the required general education and science courses before admission or during the summer semester. Transfer credit for non-nursing courses and placement exam credit will be evaluated on an individual basis. All courses must be completed with a grade of "C" or better. Students must have a Healthcare Providers CPR certification before Level 1 coursework begins.

Other admission requirements: Score of 420 or higher on TEAS test prior to application.

For more information regarding the admission guidelines, visit [www.dacc.edu/depts/nursing](http://www.dacc.edu/depts/nursing).

<b>REQUIRED COURSES</b>	<b>HOURS</b>	<b>F,S,I,SU</b>	<b>GRADE</b>
