3. Must complete a minimum of 26 hours of transfer credit.

## Notes:

1. The Bachelor of Science degree is a pre-professional program which prepares graduates for (1) a Masters of Architecture program (now required for licensure in Illinois or (2) various careers in the field of architecture and construction.
2. Three years minimum of Architectural Studies courses at SIUC are required to finish the Bachelor of Science degree. The School of Architecture at SIUC offers a three-year fast track program that begins summer semester. Students will apply for fall, but begin classes during the summer by taking ARC 121 and ARC 122. Verify with your counselor if this is your intent.
3. Students must take both MATH 111 and MATH 114 or test into Math 125 to enter this class.  
MATH 111 should be taken during the first summer, and MATH 114 should be taken in the fall.
4. Three-year transfer students: Core Curriculum course requirements must also be met per the University and program requirements. Even though this plan begins with a summer semester, the initial application to SIUC must indicate you are applying for admission into the Architectural Studies program for the fall semester.
5. Must place into MATH 125 with approved and documented math placement test scores or by completing MATH 111 with a C or better. Both MATH 111 and MATH 114 are required for the Architectural Studies program.
6. Recommended Fine Arts electives are: ARTS 115, ARTS 105, LITR 105, or MUSI 115.
7. Recommended Humanities electives: LITR 114, PHIL 101, PHIL 102, or PHIL 103.
8. Recommended Multicultural electives are: HIST 151, LITR 104, LITR 106, MUSI 122, or SOCY 225.
9. HIST 182 is not offered regularly, please see advisor for tutorial options.
