III. ATD Annual Reflection Updated Data Review

- a. Bob referenced the data handout on developmental course completion. The data does not match the ATD data because of faulty cohorts and typing errors. Dr. Jacobs mentioned the dip during the 09-10 year. This was when enrollment surged and included displaced workers who may not have completed the program or left the College when they found work. Bob also mentioned problems with data reporting and submission. This has been done at different points in the semester, which give inaccurate results. Reporting needs to occur at the same time every year to have a better picture of how things are going.

Action Items:

- Bob will continue to work on data for the next ATD report.

IV. ATD Annual Reflection Goals
